PROFESSIONAL SUMMARY

Frontend Engineer with 4+ years of experience specializing in developing high-performance web applications using React and Next.js. Proven ability to optimize API integrations, build reusable component libraries, and lead frontend teams. Passionate about creating scalable, user-centric solutions for enterprise-grade applications. Seeking a challenging role where I can leverage my expertise to contribute to innovative projects.

EXPERIENCE

Senior Associate | Samsung R&D; Institute Delhi

Mar 2025 – Present

- Driving feature development for Sampark Vconnect 2.0, a React and Material UI-powered employee portal, focused on improving access to attendance tracking and internal services.
- Enhancing the portal's UI/UX, integrating APIs, and boosting performance to deliver a fast, intuitive, and reliable user experience.
- Mentoring interns on frontend best practices and implementing scalable state management patterns using Context API.

React.js Developer | RightO Services Pvt. Ltd. (ExpandMyBusiness)

May 2024 – Jan 2025

- Architected and implemented high-performance features using Next.js and SSR for an in-house CRM platform for ExpandMyBusiness.
- Developed a comprehensive component library with Tailwind CSS, improving development velocity and maintaining consistent UI/UX across multiple applications.
- Optimized API integration patterns and implemented efficient caching strategies, reducing data fetch times by 35%.
- Collaborated with a team (5 developers, 2 testers, and 1 project manager) to deliver critical features on schedule.
- Proactively identified and resolved UI, state management, and new feature bugs, ensuring a stable and reliable user experience.

Software Engineer | Capgemini Technology Services Limited

May 2022 – May 2024

- Maintained and enhanced enterprise banking applications for HSBC, improving performance by 30% through code splitting and lazy loading.
- Designed and implemented a reusable form component library adhering to strict design system guidelines, deployed across three major banking applications.
- Collaborated with cross-functional teams across APAC region to integrate RESTful APIs and microservices.
- Participated in agile ceremonies and contributed to technical design discussions for new features.

React Developer | Shivila Technologies Pvt. Ltd.

Jan 2022 – May 2022

- Developed responsive admin dashboard interface using React and Material-UI.
- Implemented complex data visualization components for business analytics.
- Built dynamic table components with advanced sorting and filtering capabilities.
- Led an 8-member frontend team to develop and deploy projects ahead of deadlines.

Computer Engineer Intern | Aizawl Smart City Ltd.

Oct 2020 – Feb 2021

- Enhanced internal web portal through UI improvements and feature implementation.
- Managed and maintained MoHUA database alongside System Analysts.
- Supported urban development initiatives through geo-tagging of 20+ locations.
- Collaborated with planning team to digitize city infrastructure data.

SKILLS

Frontend: React.js, Next.js, Vue, TypeScript, JavaScript, HTML5, CSS3, Redux
